

Bounce Lab

A yellow ball trapped in a slowly rotating shape — pick the shape, tune the bounce.

Heart

Collisions are solved against the wall wherever it happens to be, so the ball can never leak out of a concave corner while the shape turns.

PHYSICS

⌵ Elasticity

84%

0% · dead drop

100% · perfect

Share of impact speed returned on every bounce.

Wall grip

5%

Slick

Grippy

Tangential drag on contact — grip lets a spinning wall drag the ball with it.
